DETAILED ACTION

Reissue Applications

1. Applicant is reminded of the continuing obligation under 37 CFR 1.178(b), to timely apprise the Office of any prior or concurrent proceeding in which Patent No. 5,906,407 is or was involved. These proceedings would include interferences, reissues, reexaminations, and litigation.

Applicant is further reminded of the continuing obligation under 37 CFR 1.56, to timely apprise the Office of any information which is material to patentability of the claims under consideration in this reissue application.

These obligations rest with each individual associated with the filing and prosecution of this application for reissue. See also MPEP §§ 1404, 1442.01 and 1442.04.

2. The reissue oath/declaration filed with this application is defective because it fails to identify at least one error which is relied upon to support the reissue application. See 37 CFR 1.175(a)(1) and MPEP § 1414.

3. Claims 1-4, 6-11, 13-14, 39-50 are rejected as being based upon a defective reissue declaration under 35 U.S.C. 251 as set forth above. See 37 CFR 1.175.

The nature of the defect(s) in the declaration is set forth in the discussion above in this Office action. Note that applicant has left the corresponding section of the declaration intended for the discussion of the at least one error blank at the bottom of page 1 of the declaration of 11/18/2005.

4. Applicant is reminded of the provisions of Rule 173 regarding the form of amendments in a reissue application.

Claim Objections

5. Claims 10, 11, 13 and 40 are objected to because of the following informalities: Claim 10 has --thread-- misspelled. Claim 40 lacks antecedent for “tensioning engagement member extends” as in --the tensioning engagement members extend--. Appropriate correction is required.
6. The previous final rejection of 11/6/2002 is withdrawn and replaced with this final rejection.

Allowable Subject Matter

7. Claims 1-4, 6-11, 13-14, 39-50 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 251, set forth in this Office action.
8. The following is a statement of reasons for the indication of allowable subject matter:

Claims 1 and 8 have previously been indicated as allowable for incorporating the features of previous claims 5 and 12.

Claim 50 recites the allowable features of former claim 32.

Regarding distinctions over the prior art document to Buratovich:

Claim 39 recites the tensioning rail attachment chamber and engagement member engaged therewith.

Claims 42, 46 recites the tensioning rail attachment blocks to slidably secure the tensioning rail with the side rails.

Claims 44, 45, 48 recite the tensioning screw or second end attached to the tensioning rail attachment blocks.

Conclusion

9. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

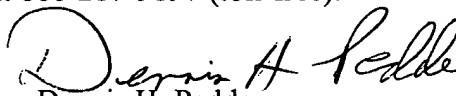

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
